

How to access databases and e-journals from home?

Authentication Gateway Service

Authentication Gateway Service is a service which allows Faculty or Staff of the University to access administrative systems, academic databases, and electronic journal websites such as UTokyo Portal and Business Trip System that are limited to the University members from outside the campus.

The members who can use this service

Faculty Members, Fixed-term Project Staff, Fixed-term Part-time Project Staff, JSPS Research Fellows enrolled at the University of Tokyo.

First, please read here.

<http://www.dl.itc.u-tokyo.ac.jp/gacos/e/index-e.html>
【OK On or Off campus】

First, please refer to the following page "GACoS".

FAQ: [Online services available from outside the campus](#)

GACoS is a gateway site for academic information search. There is a link to off campus access services.

Be prepared in advance

To use the Authentication Gateway Service, you must go through prior procedures ①~③ on campus.

Please refer to the page that explains the Authentication Gateway Service at the UTokyo Portal (in Japanese only, there is a link from the FAQ for those on campus), and go through the preparatory procedures below.

- ① Move on to the application page "人事情報MyWebの個人情報申請", and confirm that you can login to "Personnel Information System" by Utokyo Account.
- ② Register your e-mail address (メールアドレス) to the system from "パーソナルメニュー".
- ③ Apply Authentication Gateway Service via online.
(The application becomes possible after the next day of the e-mail address registration.)

※Please see this page about Authentication Gateway service. (<http://www.u-tokyo.ac.jp/ja/administration/dics/service/gateway.html>)

Please log out of the database if necessary.

Sign out of the service

* When finished using online services, sign out of the service by clicking the "door" icon on the upper of your web browser.

How to access databases and e-journals from home?

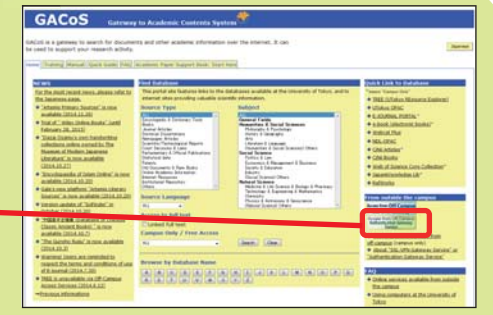

For Faculty or Staff

Faculty or Staff, Please read from

For Faculty/ Staff 1

Link to the log-in screen

Click! Access from Off Campus Authentication Gateway Service

Login to Authentication Gateway Service

Click on the "ログイン" (Login) button, log in with "UTokyo Account".

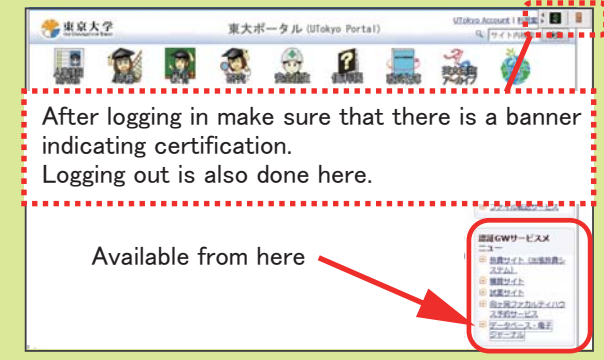

Requires advance preparation of described. For Faculty/ Staff 1

Japanese only

Select "Database・E-journal" from online services

Screen right-hand side 認証GWサービスメニュー (Authentication Gateway Service menu) of the UTokyo portal (screen accessed from off campus), Click on the "データベース・電子ジャーナル" (Databases and E-journals).

After logging in make sure that there is a banner indicating certification. Logging out is also done here.

After this, it is the same as the SSL-VPN Gateway Service.

For Students For Faculty/ Staff It is the same from here.

Please be sure to read.

To all the people using this service (Students, Faculty or staff)

1. The purpose of this gateway service is for academic use only. Commercial use is strictly prohibited.
2. Do not disclose information got using this gateway service. The disclosure may offend against the copyright law of Japan.
3. Respect University of Tokyo Rules Pertaining to Information Ethics. (<http://www.cie.u-tokyo.ac.jp/RulesPertain.html>)
4. The use of database and electronic journal is conditioned by agreements passed between the university and the publishers. Systematic or programmatic downloading, downloading a large amount of data in a short time period is prohibited. Please do not conduct excessive or unauthorized downloading.
5. Concurrent users are limited to 100. If the number exceeds the limit, you can not sign in the gateway. And some resources have a unique user limit.
6. If the idle time exceeds five minutes, you will be automatically signed out.
7. Keep your account safe. Use your own PC or secure systems. There is a risk of being hacked when you use a non-secure PC.
8. Some e-journals or databases aren't accessible by using SSL-VPN(or Authentication Gateway Service) that is accessible from on-campus.
